

A Little Something Different

Residential Family Newsletter: January 2024

IN LOVING
Memory

Weather Watch!

As we are dealing with another arctic blast, we wanted to remind you of our policies when Severe Weather impacts the day-to-day operations at ALSD. These policies are in place to address Winter Weather/Freeze, Hurricane/Flood, Severe Thunderstorm, Power Outages or other incidents that could threaten the safety of our clients or employees.

The Management Team is always monitoring the weather using multiple sources and makes decisions that are in the best interest of the clients and staff and their safety. Once a decision is made, that information is sent out to the staff and the appropriate actions are taken to prepare. We have evacuation and shelter-in-place policies and procedures for the group homes that cover most situations the could occur and that staff have been trained on. If you have questions or concerns, please contact Shonda or Cheryl.

In the month of December, two of our clients earned their Wings. Tim and Donna will be greatly missed by all of us. We love each client that we are trusted to care for and extend our sympathies to their families and those who had the opportunity to know them. May the memories of these clients always bring a smile to our faces as we remember the times we were blessed to be together.

TIM ELSWICK

1960-2023

1976-2023

The ALSD Nursing team runs over 500 appointments per year or about 42 per month!! This is a large volume for the nursing team to manage and is why we can't always proactively communicate the details of every single appointment. We are happy, however, to share information when asked or have you meet us at any appointment to participate. Please contact Michelle or Ashley for any medical information or questions about your loved one.
